Dear Holly:

How about replacing (EPA with 40CFR131)? See below.

Pete

Replace
U.S. EPA-approved site-specific water column criterion element
With
Site specific water column criterion element established under the provisions of 40CFR131

And replace
once they are duly adopted, and approved by U.S. EPA
With
once duly established under the provisions of 40 CFR 131

Dear Holly:

Initial impression "this is good". I will run it by Karl.

Thanks for all your help.

Pete

Hi Pete, I hope all is well!

I know your plate is full so I'll be brief. Per our conversation on Monday, attached for your review are EPA's recommended revisions to footnote 4 in Table 1 and footnote 17 in Table 2. Please let me know if you have any comments or questions.

Also, I'm putting together a summary of the discussion on Monday with NDDEQ and Office of Water. I'll send it to you once I'm done to make sure I accurately captured the discussion. I intended to send it today, but work keeps getting in the way LOL...

Thanks so much! Talk with you soon.
